# Premier Series Digital Thermostats

The brighter choice<sup>®</sup>

## Premier Series

3000, 3200

5300, 5400

## 3000 and 5000 Series

Braeburn 3000 and 5000 Series digital thermostats are the economical, innovative solution to lower energy costs and provide additional comfort in any residential or light commercial application. The Premier Series offers simple temperature control with the increased accuracy, comfort and reliability required by today's higher efficiency systems. Our unique recirculating fan mode, residual cooling fan delay and adjustable temperature differentials allow total control, increasing system efficiency and comfort. And our 3300, 5300 and 5400 take comfort control to the next level with features like auto changeover, remote sensor capability and adjustable temperature set point limits.

## Non-Programmable Thermostats

### Model 3000

- Single Stage Conventional or Heat Pump Systems
- 24 Volt AC Gas, Oil, Electric and Millivolt Compatible
- Dual Powered - Hardwired or Battery

### Model 3200

- Multi-Stage Conventional or Heat Pump Systems Up to 2 Heat / 2 Cool
- 24 Volt AC Gas, Oil, Electric and Millivolt Compatible
- Dual Powered - Hardwired or Battery
- Auxiliary Heat Fossil Fuel Option
- LCD Status Indicators
- Emergency Heat Option

### Model 3300

- Multi-Stage Heat Pump Systems Up to 3 Heat / 2 Cool or Conventional Systems Up to 2 Heat / 2 Cool
- 24 Volt AC Gas, Oil, Electric and Millivolt Compatible
- Dual Powered - Hardwired or Battery
- Selectable Auto Changeover Mode
- Remote Indoor / Outdoor Sensor Compatible
- Adjustable Temperature Set Point Limits
- Filter, UV and Humidifier Pad Check Monitor
- Menu-Driven Operational Test Mode
- Adjustable Balance Points
- Auxiliary Heat Fossil Fuel Option

## Programmable Thermostats

### Model 5000

- Single Stage Conventional or Heat Pump Systems
- 24 Volt AC Gas, Oil, Electric and Millivolt Compatible
- Dual Powered - Hardwired or Battery
- 7 Day or 5-2 Day Programming

### Model 5200

- Multi-Stage Conventional or Heat Pump Systems Up to 2 Heat / 2 Cool
- 24 Volt AC Gas, Oil, Electric and Millivolt Compatible
- Dual Powered - Hardwired or Battery
- Universal 7 Day, 5-2 Day or Non-Programmable
- AC Power Monitor Circuitry
- Compressor Power Outage Protection
- Auxiliary Heat Fossil Fuel Option

## Universal Thermostats

### Model 5300 and 5400

- Multi-Stage Heat Pump Systems Up to 3 Heat / 2 Cool or Conventional Systems Up to 2 Heat / 2 Cool
- 24 Volt AC Gas, Oil, Electric and Millivolt Compatible
- Universal 7 Day, 5-2 Day or Non Programmable
- Dual Powered - Hardwired or Battery
- Selectable Auto Changeover Mode
- Remote Indoor or Outdoor Sensor Compatible
- Residential or Commercial Modes
- Two Fresh Air Modes
- Adjustable Balance Points
- Programmable Fan Mode
- Adjustable Temperature Set Point Limits
- Auxiliary Heat Fossil Fuel Option
- Menu-Driven Operational Test Mode

### Model 5400 Bonus Features

- Programmable Humidification Control
- Dehumidification with Fan Speed Control
- Automatic Humidity Control with Outdoor Sensor

## Common Features

- Dual Powered—Hardwired or Battery
- Large Display with Bright Blue Backlight
- Non-Volatile Memory Retains User Settings
- Recirculating Fan Mode
- Residual Cooling Fan Delay
- Adjustable Temperature Differential
- ESD Guard™ Electronic Circuitry
- Front Access Reset Button
- Keypad Lockout
- Compressor Short Cycle Protection
- Separate O & B Terminals
- Easy Access Front Battery Door
- Three Level Low Battery Indication
- Separate Heating and Cooling Set Point Times and Temperatures

## Programmable Features

- Filter Check Monitor
- Adaptive Recovery Mode (ARM™)
- Programmable Extended Hold Mode
- Temporary Program Override for 4 hours or Until Next Set Point
- Meets ENERGY STAR® and California Title 24 Guidelines
